

ADVANCING FOR OVER 20 YEARS

US DOING IT UNITED

Introduction

About Us

**Reliability,
safety,
innovation,
and quality**

Since 2003, we at Indutec Systems N.V. have proudly delivered over 20 years of high-quality industrial and commercial solutions. We serve multiple sectors, including Mining, Industry, and Oil & Gas, ensuring safety, efficiency, and reliability in everything we do. Our dedicated team of 20 professionals works closely with our partners to bring world-class products to Suriname.

Our success is built on four core beliefs: Reliability, Safety, Innovation, and Quality. We are a trusted partner, delivering dependable industrial and commercial solutions with a strong commitment to on-time service and after-sales support. Safety is at the forefront of our operations, ensuring that businesses have access to certified protective gear and workplace safety solutions. We embrace innovation, continuously sourcing advanced, eco-friendly, and high-performance products that enhance efficiency and sustainability. Quality is the foundation of everything we do, offering only top-tier brands that meet the highest industry standards. Through these values, we empower industries across Suriname with confidence.

Our Mission

Our mission is to contribute to the growth of Suriname's industrial and commercial sectors by providing innovative, high-quality products that meet the needs of our clients. We aim to create a supportive working environment that empowers our employees to contribute effectively to the success of our customers.

Our Vision

Our vision is to be the leading provider of industrial and commercial solutions in Suriname, recognized for our customer-focused approach and innovative offerings. We are committed to investing in new products and services that enhance our clients' operations. By focusing on reliability, safety, and innovation, we aim to support the long-term growth of both our industrial and commercial partners, including those in the oil and gas and gold mining sectors.

Professional Team

Key Personnel

At Indutec Systems N.V., our success is powered by a dedicated team of 20 professionals, each bringing specialized expertise in safety, water treatment, welding, lubricants, and environmental solutions. This section will highlight our leadership team and their contributions to our continued growth and success.

Clinton Wong
Managing Director

With over 20 years of industry experience, Clinton is the driving force behind Indutec Systems N.V. With a strategic vision, he drives business development, fosters strong industry relationships, and ensures the company delivers high-quality solutions. His leadership emphasizes customer satisfaction, team collaboration, and long-term success in a competitive market.

Kyran Rampersad
Commercial Manager

Known for her professionalism, expertise, and customer-focused approach. With a strong background in sales and business development, Kyran builds trusted relationships, ensuring clients receive the best solutions tailored to their needs. Her strategic mindset, reliability, and commitment to excellence make her the go-to person for partnerships, negotiations, and driving sustainable growth for the company.

Steven Hoffman
Technical Manager

Recognized as one of the most experienced and knowledgeable technical advisors in the industry. He leads with precision, ensuring top-tier technical solutions, maintenance, and innovation. His problem-solving skills and hands-on experience make him the go-to expert for complex challenges, system optimizations, and reliable technical guidance.

Dhiraj Gajadhar
Product Manager

Dhiraj Gajadhar is the Product Manager at Indutec Systems N.V., bringing extensive expertise across the company's entire product range. With a deep understanding of all our offerings, he provides expert guidance to clients, ensuring they find the best products for their needs.

Ilva Freeman
Operations Manager

Ilva Freeman is the Operations Manager at Indutec Systems N.V., ensuring efficient logistics, service coordination, and process optimization. With a strong focus on reliability and excellence, she keeps operations running smoothly, delivering seamless support to clients and teams.

What We Do

Main Services

Safety Solutions

We provide PPE, safety footwear, workwear, and fall protection to ensure workplace safety. Featured brands include MSA, Timberland PRO, Portwest, and Moldex.

Welding Equipment

We supply welding machines, consumables, and PPE for industrial applications. Key brands: Miller, Radnor, MSA, and Lincoln Electric.

Environmental & Spill Control

We provide oil spill response kits, containment booms (Elastec), absorbents, and eco-friendly industrial cleaners (RSC BIO)

Fluid Management & Water Treatment

We offer piping solutions, industrial pumps, and water treatment systems for filtration, UV disinfection, and fluid transport.

Lubricants

Distributor of Rymax Lubricants, supplying automotive, industrial, and heavy-duty oils.

Water Dispensers & Filtration

Official distributor of Brio and Blupura water dispensers, offering hot/cold, carbonated systems with advanced filtration.

Business Units

Safety Solutions

Safety Footwear

Safety footwear is essential for protecting workers in industrial and hazardous environments. Designed to prevent injuries from falling objects, electrical hazards, and sharp materials, these boots and shoes feature reinforced toes, slip-resistant soles, and durable construction.

Workwear

High-visibility and flame-resistant workwear are critical for ensuring worker safety in hazardous job sites. High-visibility clothing enhances visibility in low-light and high-risk environments, reducing the likelihood of accidents. Flame-resistant (FR) workwear provides protection against heat.

Respiratory Protection

We offer masks and respirators designed to protect against airborne contaminants, dust, and hazardous fumes, ensuring worker safety in industrial environments.

Hearing Protection

We provide high-quality hearing protection solutions for industrial and commercial environments. Our offerings include earplugs and earmuffs, all designed for maximum comfort and compliance with safety standards.

Head Protection

We offer reliable head protection, including hard hats and helmets, to safeguard workers from impacts and falling objects in industrial environments.

Lock out/ Tag out

We provide Brady's industry-leading Lockout/Tagout (LOTO) solutions to help ensure safe maintenance procedures by preventing the accidental start-up of equipment. Through the Brady Safety Portal, teams can easily access customizable procedures, training materials, and compliance tools.

Eye Protection

We provide safety glasses, goggles, and face shields to protect against debris, chemicals, and intense light exposure in hazardous work conditions.

Business Units

Welding Equipment

**Welding is
about
precision,
strength, and
safety**

Welding Machines

Our TIG, MIG, and Stick welding machines offer power, precision, and reliability for industrial and commercial welding projects.

Electrodes, Wires & Flux

For strong, high-quality welds, we offer a variety of electrodes, welding wires, flux, and rods, ensuring arc stability and minimal spatter across various welding applications.

Welding PPE

Welders require maximum protection from heat, sparks, and UV radiation. Our selection of auto-darkening helmets, flame-resistant gloves, and protective jackets ensures comfort and safety in high-heat environments.

Gas Equipment

We provide high-quality gas regulators, hoses, and cutting torches, ensuring consistent performance and precise gas control for welding and cutting applications.

NSF-CERTIFIED CLEANING

**NSF-certified,
biodegradable
and tough on
grease**

RSC BIO CSR-2000 is an NSF-certified, biodegradable industrial degreaser that effectively removes oil, grease, and contaminants without harming workers or the environment. Designed as a safer alternative to harsh solvents, this non-toxic cleaner is ideal for use in industrial, automotive, and marine applications.

Key Features

Certified by NSF for safe use in sensitive environments, RSC BIO CSR-2000 is a biodegradable, non-toxic industrial degreaser that provides powerful cleaning while minimizing environmental impact. Its solvent-free formula ensures worker safety, preventing skin irritation and exposure to harmful fumes, while remaining tough enough to break down grease, oil, and industrial grime. Safe for metal surfaces, machinery, and tools, this versatile cleaner is ideal for manufacturing, fleet maintenance, marine, and offshore applications. Compliant with environmental and workplace safety regulations.

Applications

- Industrial & Manufacturing – Removes oil, grease, and residue from machines, tools, and workspaces.
- Fleet & Equipment Maintenance – Cleans engines, truck chassis, and heavy machinery while protecting metal surfaces.
- Marine & Offshore Use – Ideal for oil spill cleanup, ship maintenance, and eco-conscious cleaning operations.
- Food & Beverage Industry – NSF certification ensures safe degreasing in food-related facilities.

Business Units

Oil & Gas

Oil Spill Response

Oil spill response tools are designed to contain, remove, and mitigate oil spills in water and on land. Key equipment includes boom barriers to contain spills, skimmers to recover oil from the surface, absorbents for soaking up residues, and dispersants to break down oil for natural degradation. Vacuum systems and specialized vessels also aid in cleanup. These tools help protect marine life, shorelines, and ecosystems while ensuring rapid and effective spill response.

Oil Spill Response & Containment

- Oil Skimmers – High-efficiency skimmers for recovering oil from water surfaces.
- Spill Kits – Rapid-response kits for controlling hazardous spills on land and water.
- Booms & Curtains – Floating barriers to contain and control oil spills in various conditions.

Absorbents and On shore Containment

We provide Brady's absorbents and spill containment solutions designed to quickly manage and control leaks, drips, and spills. Their range includes mats, socks, pads, and spill kits for hazardous and non-hazardous liquids, helping maintain a clean and safe workplace.

Shoreline & Waterway Protection

- Shoreline Cleanup Equipment – Specialized tools for removing oil and debris from coastal areas.
- Pumps & Absorbents – Industrial-grade pumps and absorbent materials for oil spill recovery and liquid containment.

Business Units

Oil & Gas

Waste Management Solutions

Waste management tools are essential for efficient collection, processing, and disposal of waste in a safe and eco-friendly manner. Common tools include incinerators for waste reduction, recycling bins for material separation, compactors to minimize waste volume and waste containers for proper storage and transport. These tools help businesses, municipalities, and industries maintain cleanliness, comply with regulations, and promote sustainability.

Sustainable Compactor Bags

Made from 30% recycled polypropylene, these ISO 21898:2004-compliant bags provide an eco-friendly waste management solution, ensuring safe, efficient, and compliant disposal in offshore and industrial environments.

MUNICIPAL WASTE INCINERATOR

Elastec's Municipal Waste Incinerators are eco-friendly, compact, and easy to use. They efficiently burn general waste, collected drugs, biological evidence, illegal drugs, contraband, food waste, and trash.

Business Units

Water Treatment Solutions & Equipment

Clean water is essential for industry, sustainability, and life itself

Industrial Pumps

We supply high-performance industrial pumps designed for fluid movement, wastewater treatment, and high-pressure applications. These pumps ensure efficiency and durability, reducing energy costs and downtime.

UV Water Disinfection

For chemical-free water sterilization, we provide UV purification systems that eliminate bacteria, viruses, and harmful pathogens.

Filtration & Purification Systems

We offer advanced filtration technologies that remove impurities, sediments, and contaminants, ensuring clean and safe water for industrial and commercial use.

Piping Solutions

Durable and corrosion-resistant pipes are essential for water transport, industrial processing, and wastewater management.

Business Units

Vehicle Lubricants

**protects,
enhances
efficiency, and
extends the
life of
machinery**

Whether for commercial transport, industrial equipment, mining, or marine use, our lubricants reduce friction, prevent corrosion, and improve energy efficiency. Rymax Lubricants meets strict international standards, ensuring reliability and longevity for modern engines and high-performance machinery.

Passenger & Commercial Vehicle Oils

Full synthetic and semi-synthetic engine oils for fuel efficiency and engine protection. Ideal for cars, trucks, and fleet vehicles.

Marine & Mining Lubricants

Corrosion-resistant marine engine oils for boats and ships. Heavy-load lubricants for extreme mining conditions.

Heavy-Duty & Industrial Lubricants

Hydraulic, gear, and compressor oils for mining, construction, and heavy machinery. Provides smooth operation in extreme conditions.

Greases

Multi-purpose greases, hydraulic fluids, and tractor oils for equipment. Prevents wear and breakdown under heavy loads.

Business Units

Water Dispensers

**Pure, Safe,
and
Efficient
Hydration**

we provide high-quality Brio water dispensers designed to deliver pure, safe, and great-tasting water for businesses, offices, and industrial environments. With advanced filtration technology, including sediment, carbon, and hollow fiber filters, our dispensers ensure water is free from contaminants, odors, and unpleasant tastes, making hydration effortless and refreshing.

Advanced Filtration

Multi-stage sediment, carbon, and hollow fiber filters remove impurities, chlorine, and odors for clean, great-tasting water.

Hot & Cold Dispensers

Instant hot, cold, and room-temperature water for all hydration needs.

Eco-Friendly & Cost-Effective

Designed to be bottleless and reduces plastic waste.

Free Filter Servicing

Included with dispenser rentals for worry-free maintenance.
