

PROTECTIVE GEAR CATALOG

EXCLUSIVE ACCESS TO TOP BRANDS

Welcome to the Indutec Systems Protective Gear Catalog

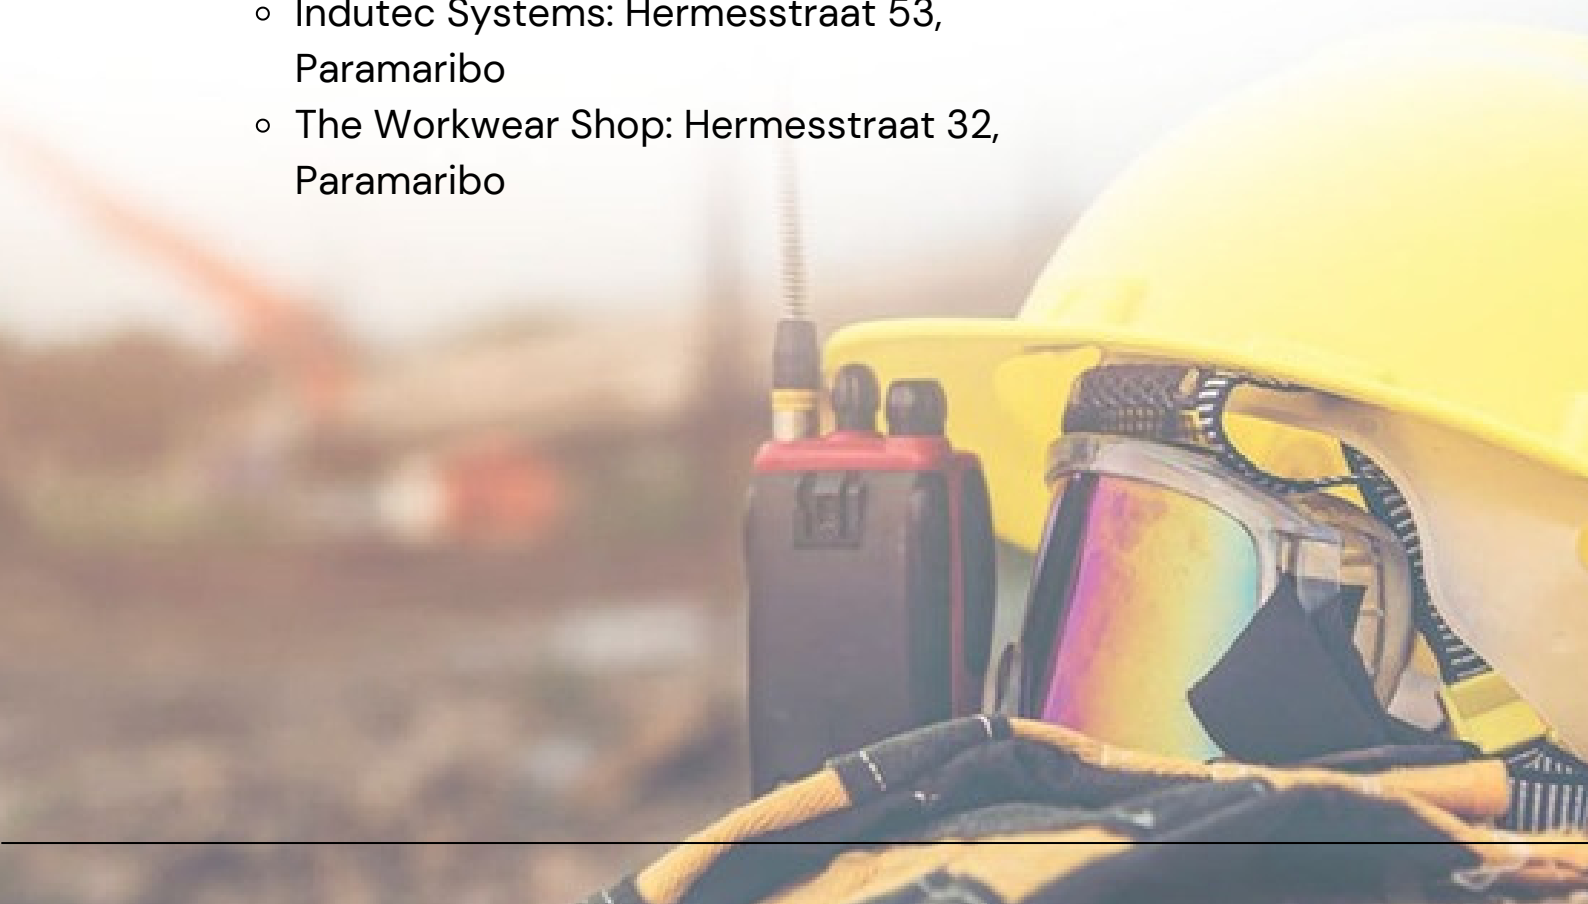

Indutec Systems is the official dealer of industry-leading brands like Portwest, 3M, Radnor, and MSA, known for their superior safety and workwear solutions.

This catalog features a wide range of high quality, durable, and compliant protective gear, including high-visibility clothing, respiratory protection, gloves, and footwear, ensuring safety, comfort, and reliability on the job. Explore top-tier safety solutions designed to meet your needs.

FALL PROTECTION

50' VERTICAL 5/8" NYLON ROPE

LIFELINE

The Vertical Lifeline is made from durable 5/8" nylon rope, providing secure fall protection for vertical work environments. Designed for strength and flexibility, it features a snap hook for easy attachment, ensuring safe and reliable performance on the job.

D62AC215A1

34" - 50" NYLON WEB TWIN-LEG TOOL

LANYARD WITH DOUBLE CARABINER HOOKS

AT ENDS

The Twin-Leg Tool Lanyard provides secure tool tethering with shock-absorbing nylon webbing that extends from 34" to 50". Featuring double carabiner hooks for easy attachment, it helps prevent dropped tools, enhancing worksite safety in elevated environments.

D621150915

COBRA® PROTECTA®

AUTOMATIC/MANUAL STEEL ROPE GRAB

The Steel Rope Grab offers secure fall protection with automatic and manual operation modes for enhanced safety and control. Designed for smooth movement and quick braking, its durable steel construction ensures reliable performance in industrial and construction environments.

D62AC202D

FALL PROTECTION

20' PROTECTA® REBEL™ SELF- RETRACTING 1" POLYESTER WEB LIFELINE

The Self-Retracting Lifeline provides durable, reliable fall protection with a 20-foot polyester web lifeline for enhanced mobility and safety. Featuring a lightweight, rugged housing and a quick-activating braking system, it ensures secure, smooth operation in elevated work environments.

D62AD120AR

6' PROTECTA® PRO™ PACK 1" POLYESTER TWIN-LEG LANYARD

The Pro™ Pack Twin-Leg Lanyard provides reliable fall protection with a shock-absorbing design for added safety. Made from durable 1" polyester webbing, it features twin legs for continuous tie-off, ensuring security and mobility in elevated work environments.

D621340180

FALL PROTECTION

PROTECTA® CONSTRUCTION STYLE POSITIONING HARNESS

The Construction Style Positioning Harness provides secure, comfortable fall protection for construction and industrial work. Featuring durable webbing, adjustable straps, and back D-rings for positioning, it ensures stability, safety, and ease of movement in elevated work environments.

D621161309

5' NYLON ANCHORAGE CONNECTOR STRAP WITH D-RING AND SEWN LOOP

The Anchorage Connector Strap provides a secure and durable connection point for fall protection systems. Made from high-strength nylon, it features a D-ring and sewn loop for easy attachment and reliable anchorage in construction and industrial applications.

ANTI IMPACT GRIP GLOVE - NITRILE

The Anti-Impact Grip Glove provides enhanced hand protection with shock-absorbing padding and a durable nitrile-coated palm for superior grip and abrasion resistance. Designed for comfort and flexibility, it is ideal for high-impact tasks in construction, automotive, and industrial environments.

A721

HAND PROTECTION

HI-VIZ YELLOW M-PACT® LEATHER AND TREKDRY® FULL FINGER ANTI-VIBRATION GLOVES

These Gloves offer superior impact protection with durable leather palms and shock-absorbing padding. Featuring TrekDry® material for breathability and a hook-and-loop cuff for a secure fit, these high-visibility gloves are ideal for demanding industrial and construction work.

MF1SMP-91-009

HEAVY DUTY NITRILE FULL HAND COATED WORK GLOVES

The Work Gloves offer durable, full-hand protection with a nitrile coating for superior grip, abrasion resistance, and chemical protection. Designed for heavy-duty tasks, they provide flexibility, comfort, and long-lasting performance in industrial and hazardous environments.

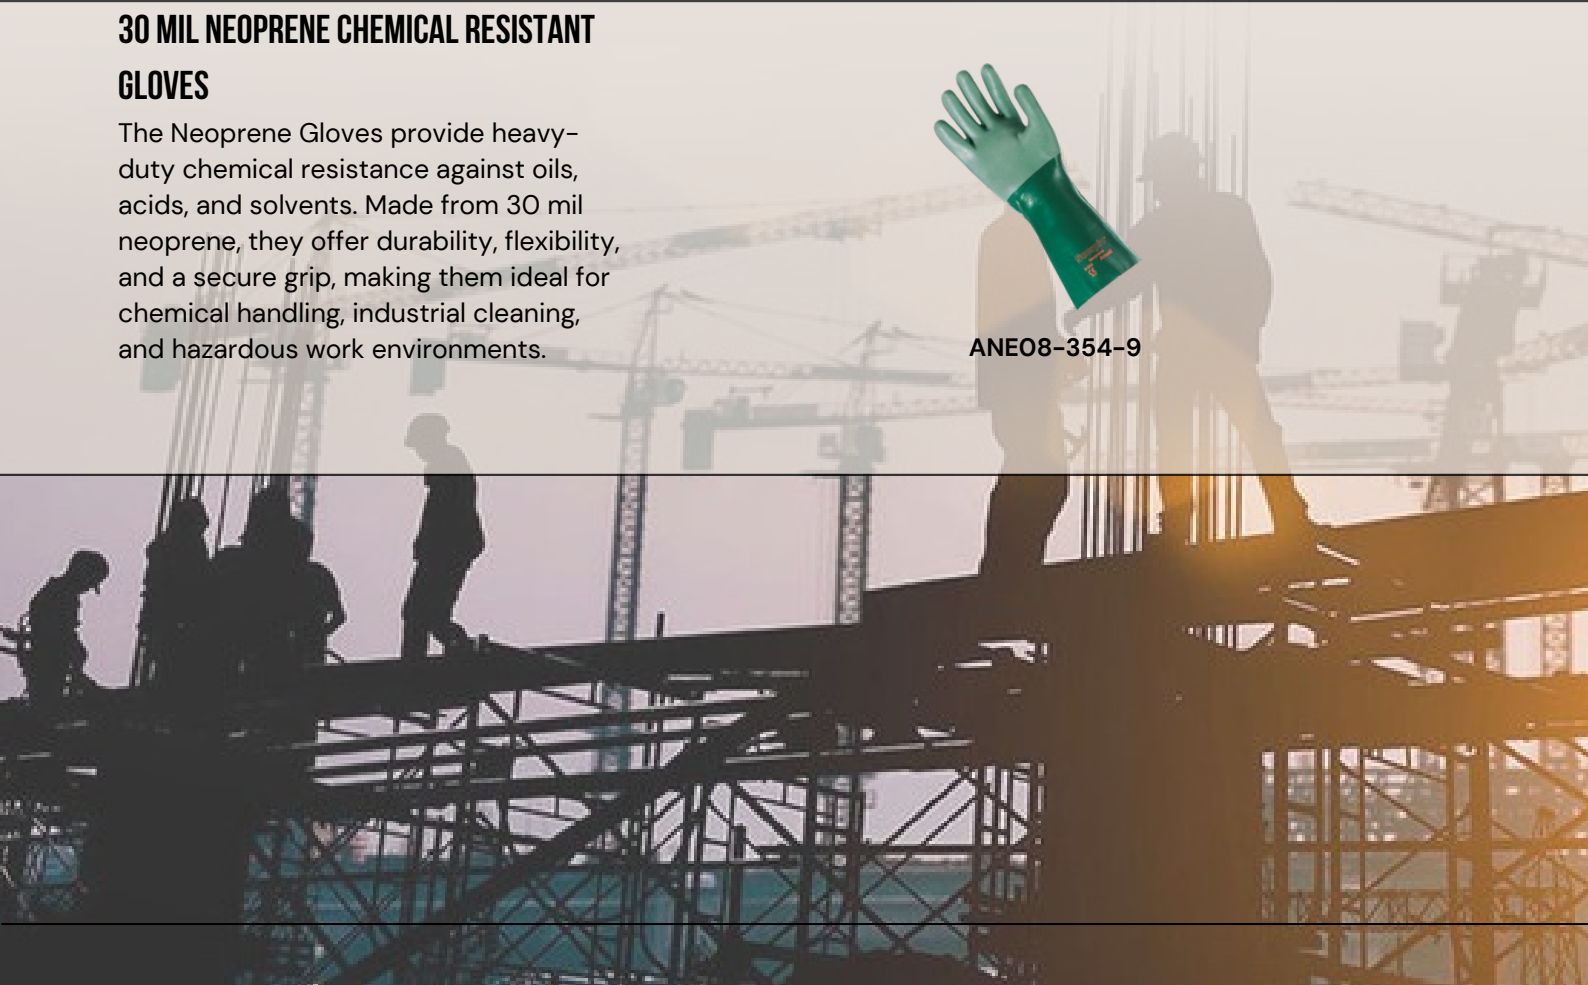

B137166-10

30 MIL NEOPRENE CHEMICAL RESISTANT GLOVES

The Neoprene Gloves provide heavy-duty chemical resistance against oils, acids, and solvents. Made from 30 mil neoprene, they offer durability, flexibility, and a secure grip, making them ideal for chemical handling, industrial cleaning, and hazardous work environments.

ANE08-354-9

HAND PROTECTION

Honeywell

WORK EASY® CUT RESISTANT GLOVES

The Cut Resistant Gloves provide enhanced hand protection with high-performance cut-resistant fibers for durability and safety. Featuring a lightweight, flexible design with excellent grip, they are ideal for industrial, construction, and material handling tasks.

PERWE100-L

PLASTIC GLOVES CLIP

The Plastic Gloves Clip provides a convenient, secure way to keep gloves accessible at all times. Featuring a durable, breakaway design for safety and ease of use, it helps prevent glove loss and is ideal for industrial, construction, and outdoor work environments.

G4148439

RESPIRATORY PROTECTION

STANDARD N95 8210 DISPOSABLE RESPIRATOR

The Respirator provides reliable respiratory protection against non-oil-based airborne particles. Featuring a lightweight, comfortable design, it includes an adjustable nose clip for a secure seal and advanced electrostatic media for easy breathing. Ideal for construction, manufacturing, and general workplace safety.

3MR8210
10 p/box

STANDARD N95 8212 DISPOSABLE WELDING RESPIRATOR

The Respirator provides advanced respiratory protection against non-oil-based airborne particles, including welding fumes. Featuring a flame-resistant outer shell, an adjustable nose clip, and 3M's Cool Flow™ Valve, it ensures comfort, reduced heat buildup, and a secure fit in welding and metalworking environments.

3MR8212
10 p/box

P95 DISPOSABLE PARTICULATE RESPIRATOR

This Particulate Respirator offers protection against both oil- and non-oil-based airborne particles. Designed for comfort and durability, it features an adjustable nose clip for a secure fit and advanced filtration for easy breathing. Ideal for industrial and workplace safety applications.

3MR8576
10 p/box

RESPIRATORY PROTECTION

P100 DISPOSABLE PARTICULATE RESPIRATOR

The Respirator provides maximum filtration efficiency against both oil- and non-oil-based particles. Featuring the Cool Flow™ Exhalation Valve, it reduces heat buildup for cooler, more comfortable breathing. Designed with an adjustable nose clip and secure fit, it's ideal for industrial and hazardous work environments.

3MR8293

N95 DISPOSABLE PARTICULATE RESPIRATOR

The Disposable Particulate Respirator provides reliable protection against non-oil-based airborne particles. Designed for comfort and breathability, it features an adjustable nose clip for a secure fit and advanced filtration for efficient particle capture. Ideal for construction, manufacturing, and workplace safety.

3MR8515
10 p/box

P100 FILTER

This filter provides maximum filtration efficiency against both oil- and non-oil-based airborne particles. Designed for use with compatible 3M respirators, it ensures reliable respiratory protection in industrial, construction, and hazardous environments.

3MR2091

RESPIATORY PROTECTION

FILTER

This Filter offers reliable respiratory protection by effectively filtering airborne contaminants. Designed for use with compatible 3M respirators, it provides high-efficiency filtration for industrial, construction, and hazardous work environments.

3MR7093

6000 SERIES HALF FACE AIR PURIFYING RESPIRATOR

The Half Face Respirator offers lightweight, durable respiratory protection against airborne contaminants. Designed for comfort and ease of use, it features adjustable straps and is compatible with 3M filters and cartridges for versatile protection in industrial and hazardous environments.

9000 SERIES REUSABLE FULL FACE RESPIRATOR

The Full Face Respirator offers lightweight, durable respiratory protection with a wide, distortion-free lens for clear visibility. Featuring a frameless design and easy-to-adjust head harness, it ensures comfort and a secure fit. Compatible with Moldex® cartridges and filters for versatile workplace safety.

MOL9001/2/3

RESPIATORY PROTECTION

MOLDEX

4400 P100 AIRWAVE® SERIES WITH SMARTSTRAP®

The Respirator delivers high-efficiency filtration against oil- and non-oil-based particles while ensuring breathability and comfort. Featuring AirWave® technology for easier airflow and a SmartStrap® for adjustable, extended use, it's ideal for industrial and hazardous environments.

MOL4400 P100

2200N95 SERIES PARTICULATE RESPIRATOR

This Respirator provides reliable protection against non-oil-based airborne particles. Its durable, Dura-Mesh® shell resists collapsing, while the contoured nose bridge ensures a secure and comfortable fit. Ideal for construction, manufacturing, and industrial applications.

MOL2200

ORGANIC VAPOR CARTRIDGES

The Vapor Cartridges provide effective respiratory protection against organic vapors and hazardous fumes. Designed for use with Moldex® half and full face respirators, they ensure a secure fit, low breathing resistance, and reliable filtration for industrial and chemical environments.

MOL7100

RESPIRATORY PROTECTION

SILICONE ADVANTAGE® 3230 FULL FACE RESPIRATOR

The Full Face Respirator provides comprehensive respiratory protection with a durable, soft silicone facepiece for superior comfort and fit. Featuring a wide, clear lens for optimal visibility, it is compatible with MSA filters and cartridges for versatile protection in industrial and hazardous environments.

HEARING PROTECTION

UNIVERSAL SINGLE USE SOFTIES® EARPLUGS

The Earplugs provide superior noise reduction with a soft, comfortable fit for all-day wear. Made from low-pressure foam, these disposable, universal-fit earplugs ensure easy insertion and excellent hearing protection in noisy environments.

MOL6600

UNIVERSAL SINGLE USE SOFTIES® CORDED EARPLUGS

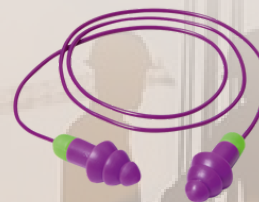

The Corded Earplugs offer comfortable, high-performance hearing protection with a soft, low-pressure foam design for a secure fit. The corded feature helps prevent loss and allows for easy access in noisy work environments. Disposable and universal-fit, they provide reliable noise reduction for industrial and construction use.

MOL6650

UNIVERSAL MULTIPLE USE CORDED EARPLUGS

The Corded Earplugs provide durable, reusable hearing protection with a soft, comfortable fit. Featuring a corded design for easy access and reduced loss, these earplugs offer effective noise reduction for industrial and high-noise environments.

MOL6405

HEARING PROTECTION

MULTIPLE USE ULTRAFIT™ 27 TRIPLE-FLANGE PVC CORDED EARPLUGS

The Earplugs provide durable, reusable hearing protection with a triple-flange design for a secure, comfortable fit. Made from soft PVC material, they offer effective noise reduction while the corded design ensures easy handling and accessibility in industrial environments.

CAS340-8002

PELTOR™ OPTIME™ 98 HELMET MOUNT EARMUFFS

The Earmuffs provide reliable hearing protection by reducing low to moderate noise levels. Designed for easy attachment to most hard hats, they feature soft, cushioned ear cups for all-day comfort and a secure fit in industrial and construction environments.

CASH9P3E

PW47 - ENDURANCE CLIP-ON EAR PROTECTOR

The Ear Protector offers convenient and reliable hearing protection, designed to easily attach to Endurance hard hats. Featuring soft, cushioned ear cups and an adjustable fit, it ensures comfort and effective noise reduction for industrial and construction settings.

PW47RER

HEAD, EYE AND FACE PROTECTION

RADNOR®

CLASSIC PLUS FRAMELESS SAFETY GLASSES

The Safety Glasses offer lightweight, wraparound eye protection with a sleek, frameless design for an unobstructed view. Featuring impact-resistant lenses and a comfortable fit, they provide durability and clarity for all-day wear in industrial and workplace settings.

FIBRE-METAL®

SLOTTED HARDHAT ADAPTER

The adapter allows for easy attachment of face shields and accessories to Radnor hard hats. Designed for a secure fit, it provides durability and flexibility, making it ideal for industrial and construction applications.

RAD6400512

ALUMINUM FACESHIELD MOUNTING BRACKETS FOR HARD HATS

The Brackets provide a durable and secure attachment for faceshields on most hard hats. Made from lightweight yet strong aluminum, they offer reliable protection while allowing for easy installation and adjustment. Ideal for industrial and construction environments.

RAD64051066

MODEL FM70 NORYL® DIELECTRIC CAP MOUNTING BRACKET

Securely attaches face shields to most non-slotted hard hats, providing durable and heat-resistant protection. Made from Noryl® material, it is dielectric, lightweight, and impact-resistant, making it ideal for electrical and industrial applications.

FIB-FM70

HEAD, EYE AND FACE PROTECTION

OX™ 2000 SAFETY GLASSES WITH PLASTIC FRAME

These Glasses provide lightweight, durable eye protection with a sturdy plastic frame. Designed to fit over prescription glasses, they feature impact-resistant lenses for clear vision and reliable safety in industrial and workplace settings.

CAS12163-00000

454AF CENTURION™ SPLASH GOGGLES

The Splash Goggles provide durable, full-seal eye protection against splashes, dust, and debris. Featuring an anti-fog, impact-resistant lens and a comfortable, adjustable fit, they ensure clear vision and reliable safety for industrial and laboratory environments.

CAS40305-00000

METALIKS™ SAFETY GLASSES

W/POLISHED METAL SILVER FRAME

These Safety Glasses combine durability and style with a polished metal silver frame for a sleek, professional look. Featuring impact-resistant lenses and a lightweight, comfortable fit, they provide superior eye protection for industrial and workplace environments.

CAS1517-10000

HEAD, EYE AND FACE PROTECTION

PLASTIC V-GARD®

UNIVERSAL VISOR FRAME WITH 3 POINT SUSPENSION

The Frame provides a secure and stable fit for attaching visors to most MSA hard hats. Featuring a 3-point suspension system, it ensures easy installation, durability, and reliable face protection in industrial settings.

MSA10115822

ELASTIC CHIN STRAP TO ATTACH TO SUSPENSION

It provides a secure and comfortable fit by keeping your hard hat firmly in place. Designed for easy attachment to MSA suspensions, it features adjustable elastic material for a snug yet flexible hold, ensuring stability in active or high-movement work environments.

MSA88128

HARD HAT WITH SLOTTED SUSPENSION

It provides durable, impact-resistant protection with a slotted suspension for easy accessory attachment. Its lightweight polyethylene shell ensures comfort without compromising safety. ANSI/ISEA-certified, it's a trusted choice for industrial and construction environments.
